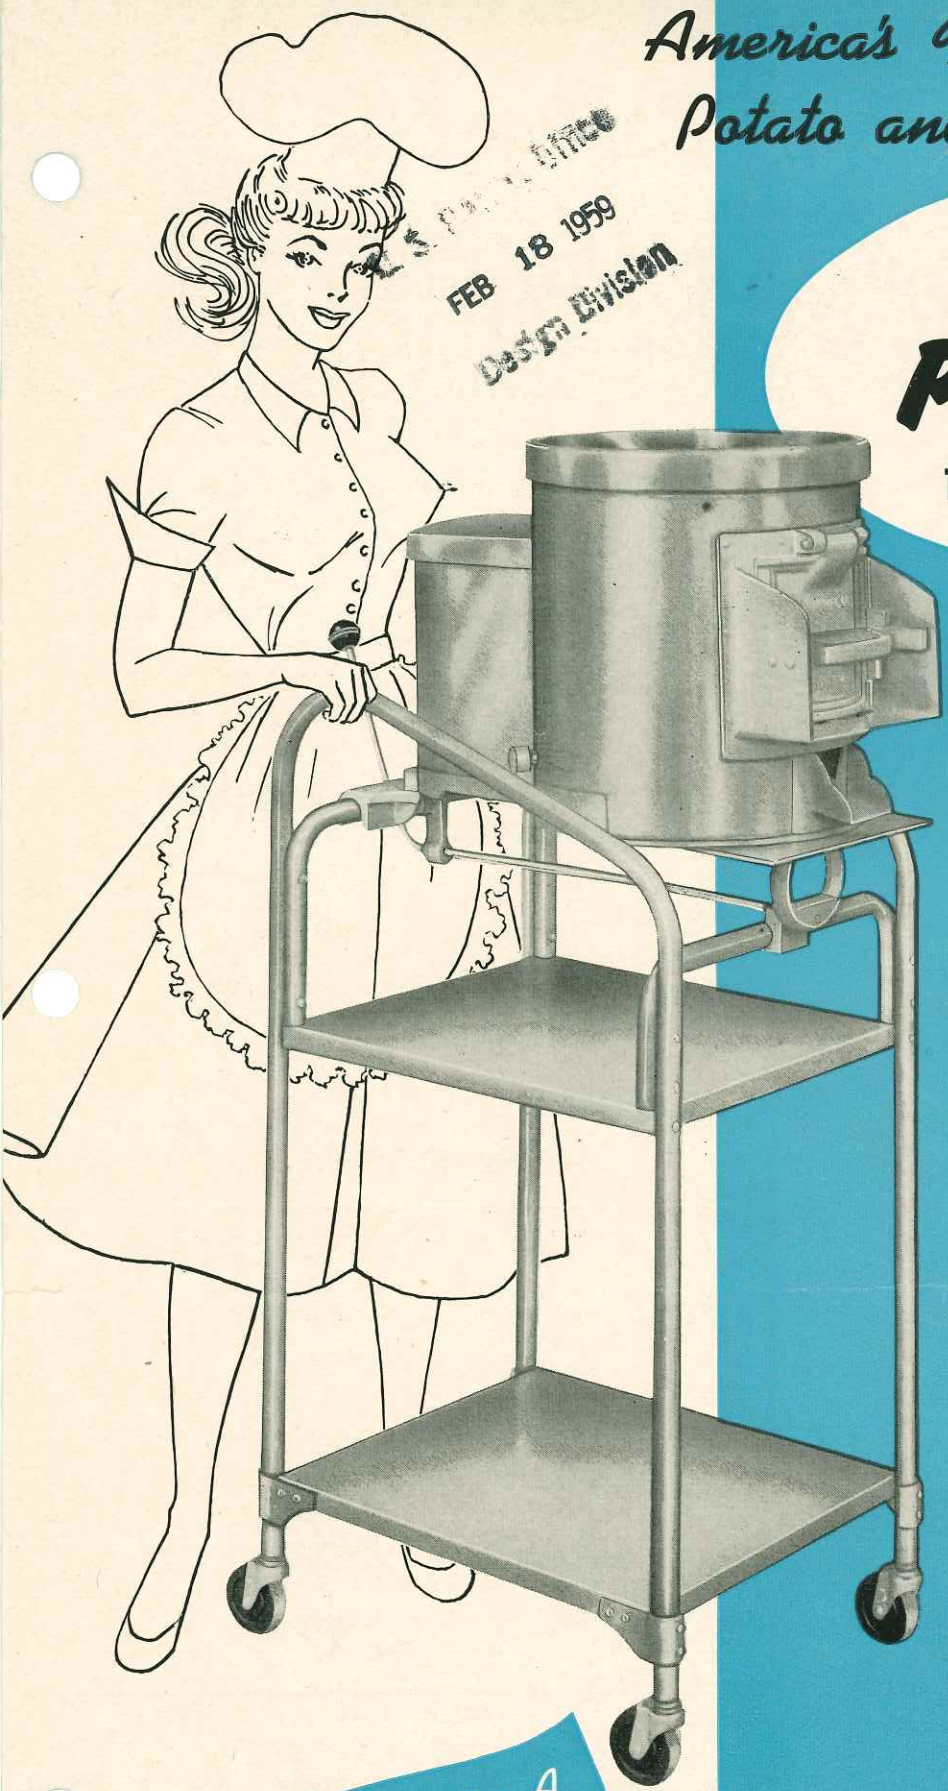
America's First MOBILE Portable Potato and Vegetable PEELER!

U.S. Patent Office
FEB 18 1959
Design Division



M. J. M.
Peelmobile

15 and 20 Pound Capacities

G-11

NO LIFTING

INSTANT ADJUSTMENT to standard sink heights (34" to 37")

BUILT TO LAST

You Never Lift It!

Wheel 'em and Peel 'em

PEELMOBILE makes any sink in your kitchen useable for peeling vegetables with less effort because it rolls to the job with ease and requires no lifting. The lasting efficiency of this peeler, coupled with its mobility pays dividends in saved vegetables, labor, time and space during many years of service. It's a natural for a limited kitchen space.

M. J. M.'s new **PEELMOBILE** features instant adjustment to standard sink heights from 34 to 37 inches. The exclusive cam does the work.

Finest workmanship is reflected in high quality, non-corrosive metals, while **PEELMOBILE'S** rugged construction, thick, self-sharpening **Carborundum** abrasive and heavy duty Timken Bearings insure longest lasting efficiency and durability.

M. J. M. Peelers

. . . a "must" in your kitchen!

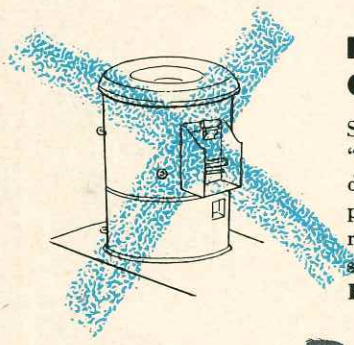
NO STRAIN . . . NO PAIN

PEELMOBILE'S ease of handling and mobility now replaces the heavy strain of lifting your machine to and from your working area. A "Wheeler Peeler" of many uses—two handy shelves to carry your vegetables from the storage room. A big time saver in any kitchen.



NO PERMANENT KITCHEN OR SINK SPACE . . .

Save valuable kitchen space with this "easy-to-move" vegetable Peeler. No sink drainboard space required while in use—it peels on its own stand. After using, just roll it out of the way. Permanent kitchen space no longer needed—thanks to **PEELMOBILE!**

NO INSTALLATION

No special electrical outlets are required with **M.J.M. PEELMOBILE**—just plug the long cord into existing 115 V wall socket. No plumbing—simply attach flexible hose to cold water faucet, waste discharges into sink through peel basket.

Note: Owners of Model 15AG and Model 20A (round back) M.J.M. portable peelers may purchase a **PEELMOBILE** stand only to easily convert their machine into a modern **PEELMOBILE.**
